

ROSTER  
OF  
OHIO SOLDIERS  
IN THE  
WAR of 1812

EDITED BY JOHN A. W. ... OF LAW ...  
THE ADJUTANT GENERAL OF OHIO

Page 1  
0505

# ANNALS

The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (1) as  $t \rightarrow \infty$ . It is shown that the solutions of (1) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable. The second part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (2) as  $t \rightarrow \infty$ . It is shown that the solutions of (2) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable and the matrix  $B$  is positive definite. The third part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (3) as  $t \rightarrow \infty$ . It is shown that the solutions of (3) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable and the matrix  $B$  is positive definite. The fourth part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (4) as  $t \rightarrow \infty$ . It is shown that the solutions of (4) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable and the matrix  $B$  is positive definite. The fifth part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (5) as  $t \rightarrow \infty$ . It is shown that the solutions of (5) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable and the matrix  $B$  is positive definite. The sixth part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (6) as  $t \rightarrow \infty$ . It is shown that the solutions of (6) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable and the matrix  $B$  is positive definite. The seventh part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (7) as  $t \rightarrow \infty$ . It is shown that the solutions of (7) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable and the matrix  $B$  is positive definite. The eighth part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (8) as  $t \rightarrow \infty$ . It is shown that the solutions of (8) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable and the matrix  $B$  is positive definite. The ninth part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (9) as  $t \rightarrow \infty$ . It is shown that the solutions of (9) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable and the matrix  $B$  is positive definite. The tenth part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system of equations (10) as  $t \rightarrow \infty$ . It is shown that the solutions of (10) tend to zero as  $t \rightarrow \infty$  if and only if the matrix  $A$  is stable and the matrix  $B$  is positive definite.

1955

## THE WAR of 1812

Because of war having been declared, President Madison issued instructions to Governor Return Jonathan Meigs of Ohio, on April 6, 1812, to assemble the Militia at Dayton, Ohio, to be drilled and prepared to march to Detroit.

By the end of the month more than the required number of men had been drilled.

Early in May, these troops were fairly equipped and had one or two Field Officers. The President had commissioned Governor John C. McHenry a Brigadier General. General Hull arrived at Dayton, Ohio, on May 2, 1812, and left with his troops June 1.

According to the records in The Adjutant General's Department of Columbus, Ohio, furnished for this war 1739 Officers and 22 Enlisted men contributed as follows:

First Regiment Infantry, 105 Companies  
Second Regiment Infantry, 85 Companies  
Third Regiment Infantry, 56 Companies  
Unassigned Infantry, 187 Companies  
Assigned to U. S. Infantry, 5 Companies  
Mounted Infantry, 25 Companies  
Cavalry, 13 Troops  
Artillery, 1 Battery

The printed text of this copy  
is the original which has been  
preserved by transferring it, in  
1950, to new rag paper.
